- 4 – M6 nylok nuts
- 4 – M6 washers

- 2 – M6 x 20 button head cap screws
- 2 – M 6 nylok nuts
- 2 – M8 washers

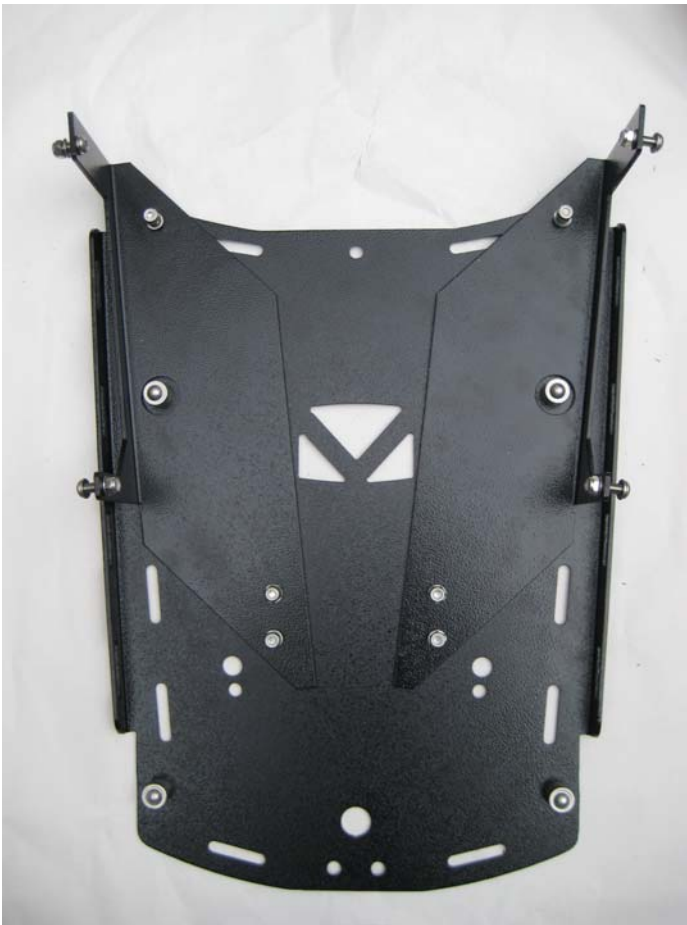

Overview

The Micatech Pack Rack is installed on top of the BMW R1200GS Adventure rack. The Micatech Pack Rack can be placed in the front or rear position.

Attach the Pack Rack to the two large mount kit brackets using the Pack Rack Hardware. The mount kit brackets are then installed on the BMW Adventure rack using the Mount Kit Hardware.

Step 1a. Pre-assemble the Pack Rack and Brackets

Attach the Pack Rack to the two large mount kit brackets using the Pack Rack Hardware, as shown below.

Step 1b. Install support bracket

Your mount kit comes with a support bracket and M8 x 12 flat head screw to support and stabilize the rack. See the photos below for proper placement of the support bracket on the BMW Adventure rack.

Note: the tapped hole faces up. When securing the Pack Rack to the two large brackets, be sure to use the M8 x 12 flat head screw to secure to support bracket.

Step 2. Install the Pack Rack to the BMW Adventure Rack in Front Position

Using the Mount Kit hardware, the Pack Rack can be mounted in the front or rear position on your BMW R1200GS Adventure rack.

To mount the Pack Rack in the front position, remove the rear seat.

The Pack Rack mounts to the BMW R1200GS Adventure rack, utilizing the series of holes on the tabs on the sides of the GSA rack. See the following photos for front and rear mounting positions.

In the front position, the tabs on the side of the Mount Kit brackets go inside the BMW R1200GS Adventure rack.

Step 3. Install the Pack Rack to the BMW Adventure Rack in the Rear Position

In the rear position, the tabs on the side of the Mount Kit brackets go outside the BMW R1200GS Adventure rack. See photos below.
